成功完成超限货物内江驳运服务

Ougao Successfully Completes Inland River Barge Service for Oversized Cargo

针对货物尺寸超限、无法通过常规公路运输的难题，欧高国际物流为客户量身定制了船舶驳运解决方案。近期，公司成功完成了一批重大罐体设备的内江驳运任务，这也是欧高首次采用驳船进行内江运输。

该批货物宽度达9.27米，单件重量高达69吨，远超公路运输限制。欧高团队精心规划运输路线，从装货码头至卸货码头全程统筹。考虑到江苏沿江地区天气与潮汐因素，团队制定了精准的时间方案：货物于凌晨完成装船，并赶在当日涨潮前安全抵达指定卸货码头。

When cargo dimensions exceed highway limits and conventional road transport is no longer an option, a tailored solution is required.** Ougao International Logistics recently delivered just that—designing and executing a customized vessel barge operation for a shipment of heavy tank equipment. The successful inland river barge transport marks a first for Ougao, representing the company's debut in barge-based inland waterway logistics.

The challenge was considerable: each unit spanned 9.27 meters in width and weighed up to 69 tons, well beyond standard road transport parameters. The Ougao team meticulously mapped the entire route from loading to discharge terminals. Factoring in weather patterns and tidal conditions along the Jiangsu river corridor, the team orchestrated a precise schedule—loading the cargo in the early hours and ensuring safe arrival at the designated discharge terminal before the day's high tide set in.
